### Minnesota Immigrants for Fraser River.

We are indebted says the *Journal*, to Mr Charles Goodrich for the following information in regard to the immigration from the Northwestern States via Saskatchewan to Fraser River. He informs us, that after the pioneer party had left them at Pembina to make their outfit, that they were delayed five weeks through the rascality of the man who had promised to outfit them for the trip. They were indebted, he says to the officers of the Hudson Bay Company at the fort for many acts of kindness. They started late in the spring, and reached the foot of the Rocky Mountain on the 1st July, and came up with a party of four that had wintered at the Red River Settlement. On the 2d July they entered Sinclair Pass—after 28 days travel they arrived at Tobacco Plains, and met there a party of fifteen that had also wintered at Red River—this party struck for the head waters of the Missouri, and came through the Mountains at the Boundary Line Pass. They report that there were about 150 that had wintered at Red River, destined for the golden fields of the Washington Territory and Fraser River. The winter in that latitude was very severe, and in consequence they experienced some hard times. They were not annoyed by the Indians on the route, but on the contrary met with marked consideration, being supplied gratuitously with fresh meat on several occasions; they speak in unbounded terms of the hospitality of the Kootenais at the Tobacco Plains; these Indians in addition to supplying them with provisions, furnished them with fresh horses for their jaded ones. Mr. G. states that the distance from St. Paul, Minn., to Fort Edmonton, on the Saskatchewan, by an odometer, is 1,237 miles.

MEXICO.—By the steamer Habana at New Orleans from Minatitlan, news had been received of the robbery of the California passengers on the Isthmus. The mails were cut open six miles from the town of Tehuantepec. Miramon has dissolved his Cabinet. Marquez has revolted against Miramon, but the Liberals are besieging Marquez, in Gaudajara. The Archbishop of Mexico, has excommunicated the liberal party. General Noll has been defeated at Tamauilipas, losing all his artillery. Degollado has assumed the command of the Liberal army. He promises to take the capital by October. He wants three millions in money and forty thousand men. The decree against the Church is being executed. Bonds of matured debt has raised 10 per cent.

### House of Commons.—Thursday 20th July.

SUPPLY.—At the morning Sitting the House went into Committee of Supply. On the vote of £42,998 for British Columbia.

Mr. Williams expressed his astonishment at the magnitude of the vote and deprecated the constant accession of new colonies to our rule. This was part of an old colony, and £42,000 odd pounds seemed to be an extraordinary sum to start with.

Mr. Adderly asked how much the colony had raised by customs, land sales and mining licenses. The colony ought very soon to defray its expenses out of these revenues. A colony of which he had been one of the founders—that of the Canterbury, New Zealand—had never cost this country a farthing from first to last; and he saw no reason why British Columbia might not be established upon the same principle. Next year he should ask the House not to allow this vote.

Mr. C. Fortescue said the liability of this vote was incurred by the late government. The Colonial office had received no information from the governor later than last February. The income of the colony then amounted to £23,000 and the expenditure to £25,000 but the governor anticipated sales of land to the extent of £10,000 which would then leave a large balance in favor of the colony. The chief defect that existed in this colony was the want of efficient communication, and this defect the governor was endeavoring to remedy as well as to develop the gold resources of the country. He had been warned by the authorities at home that he must not look to the Imperial Parliament for a continuance of the grant.

On the vote of £24,758 for the governors of the West India and other colonies, Mr. W. Williams said that now the trade was thrown open the colonies should support themselves. Some of the Australian colonies were included in this vote. He should move that the vote be reduced by £1,800 being the amount of the salary paid to the Governor of Western Australia.

ANNEXATION OF MAINE TO CANADA.—The *Montreal Pilot* wants to acquire the State of Maine and says: "Portland will still have to be our Atlantic terminus for the season, and we may now feel more than ever the effects of that stupidity, which in settling the boundaries between the United States and Canada was the means of depriving us of what should have been ours—the through right of passage to the seaboard. Every now and then Cousin Jonathan is fond of twitting us about our annexation preclivities, and the certainty that one day Canada will become part and parcel of the United States. There are many wonders, no doubt looming in the distance, but we do not think this is likely to be one of them. If Canada could, however, by annexation, purchase or in any other way acquire possession of the State of Maine—which of right ought to have been ours—it would conduce largely, and would add materially to our prosperity and wealth."

### SEWING MACHINES.

### RICE.

TWELVE Hundred Bags Extra F Rice, re-packed for this market, in sale by JANIO & SONS, Victoria, Aug. 16, 1859.

A. DE COSMOS, EDITOR.

VICTORIA, V. I.

WEDNESDAY MORNING, SEPT. 28.

The steamer *Northerner* arrived yesterday with the mails, and left again at noon for San Francisco.

The steamer *Forwood* will no longer ply between here and San Francisco. The opposition from the Pacific Steamship Company rendering it a losing business. It is proposed to run her between San Francisco and Mexico.

The Montreal Field Battery, under the command of Capt. Stephenson, had arrived in Boston. The Independent Fusiliers received them at the depot and escorted them to their quarters at the Hancock House, while a salute was fired by the Boston Artillery, under Capt. Nims.

The London Weekly *Dispatch* of July 30th remarks that the news from British Columbia state that "Gov. Douglas' Administration is, if possible, becoming more unpopular. The demands for his removal are coming from new and unexpected quarters."

AN ENGLISH PIONEER VESSEL.—The first ship from London to this Port, after the discovery of gold in California, was the "St. George." She was sent out by Selim Franklin, sailing in April 1849, and arriving here in October of the same year. Mr. Franklin is now an auctioneer in Victoria, V. I.—S. P. Times.

An interview took place between Mr. Franklin and Lord Palmerston respecting his enterprise, which at that time was ridiculed as too speculative. But having data in the possession of the government, he put up the "St. George" in the month of January 1849. The London Times of that date said that she was the first vessel that ever sailed direct from London for California.

Capt. Mason, of the British bark *Orestes*, has been committed for trial at a special session, Sept. 17, at Honolulu, for the murder of Joseph Watson, seaman, on August 23. An altercation took place whilst sailing in a boat, outside the harbour, when Capt. M. struck at him with the tiller, and Watson jumped for the boom of the boatsail, and fell overboard, and was drowned.

BRITISH ACQUISITIONS ON THE GOLD COAST OF AFRICA.—Rev. Mr. Thomas in his letters from Africa, says that the Forts of the Danes at Accra, and four other places on the Gold Coast, have been recently sold to the British Crown for \$50,000.—Thus, and by lawful means, is England lengthening and strengthening her stakes on the shore of Guinea. When the natives of Danish Accra heard that they were to change their masters, they received the tidings with the wildest enthusiasm, and with shouts for Victoria, and processions in her honor, welcomed the rule of her Majesty and the new era of their history. Mr. Thomas says:—

"The superiority of English rule and civilization in elevating African humanity, may be seen in the advanced condition of the natives in English territories, as compared with those of territories under foreign influence. This appears in a forcible light when we compare Cape Coast town with Elmina. The facts and figures that we have given will show that civilization and Christianity are making progress in the former place at a rate and of a character which inspire hopes of the final triumph of truth and the arts of peace."

Hibben & Carswell have placed us under obligations for late papers.

The British steamer *Forwood* arrived here yesterday morning, 4 days from San Francisco. From our exchanges to Sept. 24, we glean the following items of California news:—

Gen. Denver is actively engaged in canvassing for the vacant senatorship, made by the death of Broderick. Objections are urged against him on account of having killed Gilbert in a duel in 1852.

Judge Cope, it is said, will be appointed to fill the place of Terry, made vacant by his flight.

Senator Gwin has been challenged to fight a duel by ex-Governor McDougall, since the death of Broderick.

Gov. Wells, will appoint W. C. Anderson, of Nevada, to fill the vacant senatorship.

Campo Seco, Calaveras, was destroyed by fire on the 20th.

Senator Broderick was buried on Sunday the 18th inst. The funeral was more numerous attended than any that has ever taken place in the state. It was fifty-four minutes passing the corner of Montgomery and Jackson streets. The body was conveyed to the Plaza, where Col. Baker delivered a brilliant funeral oration, in which he gave the cause of Broderick's death in his own words, "I die because I was opposed to the extension of slavery and a corrupt Administration."

Mr. Skinner gave notice that he would introduce a bill for the Protection of Wooden Bridges, in Vancouver Island and its dependencies.

A bill to increase the representation of the people in Vancouver Island, passed a second reading; also, a bill to amend the representation (Elective Franchise.) Also, bill for the Registration of Voters.

Mr Yates moved that the Franchise Bill be postponed for one week. Since the present House was elected, the population had largely increased, and he thought it necessary to allow sufficient time for to hear the views of the country, before the bill was passed. His motion was agreed to.

The Registration of Voter's Bill, and the bill to increase the representation were made the order of the day for Thursday next.

#### Royal Hospital.

Mr. McKay moved that the House go into Committee to provide ways and means for the support of the Royal Hospital. Messrs. Pemberton and Yates opposed doing any further business till the Franchise Bill was passed. The motion was carried.

Mr. McKay moved that the House recommend the Governor to appropriate the surplus moneys in the Harbor Master's department, for the support of the Hospital.

Mr. Yates would like to know whether the House had any thing to do with that fund? His Excellency had informed them that the House had control over no fund except that derived from licenses. If he had given \$2000 without consent of this House, he could give more.

The Speaker thought the hon. member was not strictly correct. He would give £250 from the general fund; and as the patients in the Hospital were from British Columbia, he thought the head-money collected there should be appropriated for its support. He moved,—"that the House is of opinion that it would be right and proper to subscribe the sum of £250 to the Royal Hospital, and that such subscription should be paid out of the revenue of the Colony."

Mr. Yates supported the motion, as an act of humanity. Passed.

#### Address to the Duke of Newcastle.

The Speaker moved an address to the Duke of Newcastle, praying that the House of Assembly be authorised to establish a land system for this Colony. He proposed sending with it, the petition of the inhabitants of Victoria, addressed to the House in July last, respecting a reduction in the price of land. After some discussion, the address passed.

The House adjourned to meet at 11 A.M. Thursday.

**TORNADO AT PRINCE EDWARD'S ISLAND.**—The Prince Edward's Island *Examiner* describes the tornado of 5th August as the most terrific ever known in the island, tearing up strong trees and doing much damage to property. A number of boats in the harbor were upset, one of which contained Fred. Goodwin, son of Hon. G. B. Goodwin, formerly collector of Charlottetown, and a Miss Moloney, who were both drowned. Several other cases of drowning are reported, and a vessel is reported to have gone down with all on board, consisting of seven persons. The *Examiner* has fears also for the safety of the fishing vessels, of which there were a large number out. A telegraphic despatch was received at Charlottetown from New Brunswick, giving notice of the storm twenty minutes before it burst upon them.

The London Chronicle says: "We can state on the authority of a private letter from India, that the Maharajah of Cashmere is forwarding as a present to her Majesty a most costly shawl tent, which will contain moreover a bedstead of solid gold."

## Two Days Later from Europe.

By the arrival of the *Forwood* we have St. Louis dates to August 29th, Liverpool to 17th, and Cork to 18th.

The Zurich Conference had made no progress in arranging the terms of peace.

The departure of the *Great Eastern* for Portland has been postponed till the 15th September.

The Grand Duke of Tuscany had arrived at Paris and was received frankly by the Emperor.

All the warnings to the French Newspapers had been withdrawn.

A great fire had occurred in Liverpool, destroying a large quantity of cotton and grain.

The military fete at Paris on the entry of Napoleon proved to be a very grand affair. The troops were headed by the Emperor, and the display made was most imposing.

The Emperor has granted a full amnesty to all political offenders.

A *Te Deum* took place in Paris on the 15th, in honor of the fete Napoleon. All the plenipotentiaries and members of the Federal Council were present.

The Paris correspondent of the Daily News asserts that the Zurich Conference is a dead lock. The Emperor Napoleon exhibited symptoms of annoyance at the conduct of the Court of Vienna, and the recent articles in the Paris journals in praise of Kossuth and Garibaldi are attributed to this feeling.

The grand military spectacle, which had been prohibited in the Paris theatres out of consideration for Austria, has been permitted to re-appear.

The ministerial journal of Vienna insists very strongly on the stipulations at Villafranca being carried out at Paris.

The rumored Red republican movement in Parma is contradicted.

Marshal Pellissier is seriously ill. A heart complaint says the Court Journal, is the cause.

The Lord Chancellor read the Queen's speech—proroguing Parliament. She regrets that the interruptions during the session have prevented many important measures from being carried, and hopes for early consideration at the next session. The war in Italy having been concluded, England has been invited to take part in the Conference of the great powers should one be held, but there is not sufficient information on this subject to admit of a definite reply. She would rejoice at being able to contribute to arrangements to serve a peace. She hopes that the direct communication with Pekin will prove beneficial. She hopes for a continuance of the existing amicable relations with all powers; rejoices at the complete suppression of the Indian rebellion, and promises her serious attention to the internal improvement of India. She gladly assents to the bills providing for the naval and military reserves, and regards permanent national defences as of paramount importance. The remainder of the speech is congratulatory on the prosperity of the nation.

#### Atlantic States.

Ex President Pierce, and family had arrived at Boston.

A train of fifteen wagons from Salt Lake had arrived at Leavenworth with fifteen children rescued from the Indians after the Mountain Meadow massacre by the Mormons.

Louis Bonne, French Consul, at Savanna died of old age on the 27th.

From Venezuela news had arrived at New York, that the Liberals had taken Laguya on the 1st of August.

A disastrous fire had occurred at New Bedford; 20 buildings burned.

At Pittsburg, and all along the Monongahela, the strike amongst the coal miners continues. Some 3000 are engaged in it, but their proceedings are not marred by any riotous conduct.

The last feat of Blondin was to sling a cook-stove on his back, and cross the river on the rope. On his return he stopped in the middle, lowered his stove, made a fire, cooked some eggs, and then lowered all to the *Maid of the Mist*, 500 feet below.

## From Fraser.

The steamer *Otter* arrived about 10 o'clock last night, with 17 passengers from New Westminster.

The *Eliza Anderson* ran by the harbor in the dark, and arrived at Esquimalt about 11 P.M. She brought down 75 passengers, the *Express*, and from \$15,000 to \$20,000 in gold dust. News from the mines reported encouraging.

New Ad's.—J. A. McCrea, Auction; Lester & Gibbs, Yates st., Groceries; Hibben & Carswell, Stationer's Hall; Washington Restaurant, Government street.
